Description

Google Gemini & NotebookLM: All-in-One AI Masterclass 2026

Build a Second Brain: Master Gemini 3.0 & NotebookLM for Research 2026: Use Gemini 3.0 to analyze data New 2026

Stop drowning in information. Start thinking with AI.

In 2026, information isn't power—**synthesis** is. This course is the only "All-in-One" guide that combines the reasoning power of Google Gemini 3.0 with the organizational genius of **NotebookLM** to help you build a "Second Brain" that never forgets.

Most AI courses just show you prompts. We build a workflow. You will go from scattering notes to building a fully automated research engine that reads, analyzes, and even *speaks* to you.

What You'll Master in This Course:

- The Gemini 3.0 Advantage: Harness the latest multimodal capabilities to analyze complex data, images, and code in seconds.
- NotebookLM Deep Dives: Turn PDFs, websites, and messy docs into instant "Audio Overviews" (Podcasts) and structured study guides.
- The "Second Brain" Workflow: Connect Gemini's analysis with NotebookLM's memory to automate research papers, market reports, and study summaries.
- Zero to Expert: We cover everything—from basic setup to advanced cross-referencing strategies.
- Nano Banana Pro: Image Work Flow: Now Images Thinks and Learn
- Prompt Engineering Basics

Don't just use AI. Partner with it. Join the masterclass and turn your curiosity into a powerhouse of productivity.

Who this course is for:

- Anyone Who Wants to Use AI Confidently
- Professionals Overwhelmed by Information
- Students & Researchers
- Entrepreneurs & Business Builders
- Content Creators & Knowledge Workers
- Knowledge Workers & Researchers who are "drowning in info" and need a system to synthesize data faster than ever before.
